Hi Holly,

Figure 3 looks great, thanks!

On Figure 4, the two triangles appear to have slightly differing side length and color. Ideally they would be identical. But if this is too hard because of software constraints or some other issue, the figure is fine as is.

Thanks very much--
John

Hi John,

I have attached pdfs of figures 3 and 4 for your review.

Thank you again for your help,

Holly

Hi John,

I will check on the figures and will get back to you tomorrow. Figure 4 is most likely a font issue - I will let you know.

Thank you for your help,

Holly

Hi Holly,

I am commenting on 5/12 draft figures.

Optional on Figure 3: can Fig 3A be shrunk horizontally and 3B expanded horizontally to a common x-axis length without deleteriously affecting the font appearance? If the answer is no, then these figures are fine as is.

Desired on Figure 4: In the figure I submitted, I had triangles representing Chemours and Solvay. But in this draft figure, the triangles are replaced by pound signs (seemingly with an asterisk or similar on Chemours as well). Can a solid shape (e.g., a triangle) replace these two pound signs (and the extraneous asterisk be removed)?

Thanks,
John

You can access your figures for review prior to galley at Science's author website
<https://gcc01.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcts.sciencemag.org%2F&data=02%7C01%7CWashington.John%40epa.gov%7C59ed1c09ab57462dd1b508d7f75219e8%7C88b378b367484867acf976aacbeca6a7%7C0%7C0%7C637249804305467111&data=iJfDuG%2B5RHysBeDy0Un%2FI4w%2Fz1zSklZwZFJP3lBiOAs%3D&reserved=0>

After logging in, select your manuscript. Once you get the manuscript record, click on the MANUSCRIPT DOCUMENTS tab to download your figures and check them.

In order to avoid revision cost at galley stage, could you please review the figures carefully for complete accuracy and provide comments/approval/revised art as needed via this site by tomorrow.

Comments can be added to the text box at the site, be sure to save, then hit the 'Submit' button at the end.

(Please also send me an email.)

Please note that the pdfs (when printed) reflect the actual size that figures will appear in the magazine.

Thanks very much for your help with this. As a result, your complete and accurate figures will go to production this week.
